

E-Waste Recycling

Secure, Certified, and Sustainable

SV Tech Source offers certified e-waste recycling services that ensure your retired IT assets are securely handled, data is fully destroyed, and materials are responsibly processed or reused. With 20+ years of experience, we help businesses meet compliance and sustainability goals without risk.

E-Waste Recycling

What We Recycle

SV Tech Source responsibly recycles a wide range of IT and telecom equipment. This includes servers, racks, and cabling, as well as laptops, desktops, and monitors. We also handle circuit boards and PCBs, along with IT peripherals and accessories. Additionally, we manage telecom and networking hardware, ensuring that valuable materials are recovered and e-waste is diverted from landfills.

- Servers, racks, and cabling
- Laptops, monitors, desktops
- Circuit boards and PCBs
- IT peripherals and accessories
- Telecom and networking hardware
